

# Top Feed Data Routing

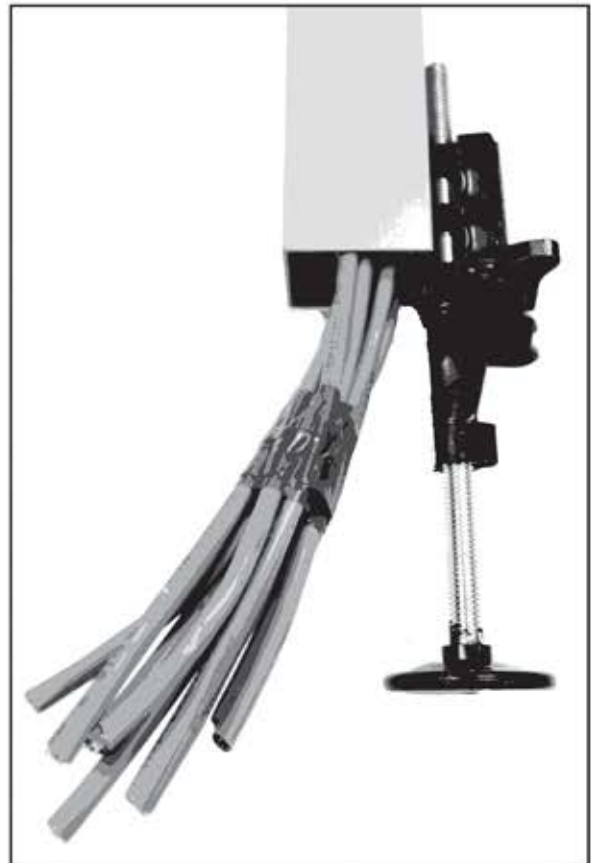

Minimize the risk of damaging your cables by following these simple guidelines:

## Communication Pole

For Communication Poles, a maximum of **16** - CAT 6 (or equivalent sized cables) can be routed.  
(Can typically supply data to 8 stations)

## Power Pole

For PowerPoles, a maximum of **10** - CAT 6 (or equivalent sized cables) can be routed.  
(Can typically supply data to 5 stations)
